Gartner Magic Quadrant for ITSM

A culmination of industry knowledge and research, the Gartner Magic Quadrant for IT Service Management Tools provides a broad view of the ITSM market, the relative positions of its competitors, and use cases for organizations based on their maturity of infrastructure and operations

(I&O).

We're proud that the most recent Gartner Magic Quadrant for ITSM, published in August 2019, names BMC as a leader for the 6th straight year.

In the Magic Quadrant report, Gartner describes BMC strengths, including:

- BMC has a broad ITOM portfolio, making it a viable partner for mature I&O organizations that need to extend their ITSM tools.
- The containerized BMC Helix ITSM product offers a broad set of deployment and licensing options, including SaaS, co-sell partnerships with public cloud providers (AWS and Azure), and on-premises, giving customers flexibility in how and where their instance is deployed.
- BMC scored the highest for the advanced I&O maturity use case, indicating that it is strongly suited to meet the requirements of high-maturity I&O organization.

"Best tool for resolution of Dockets"

What do you like best?
It is very helpful for resolving the tickets..almost all the attributes are self explanatory and easy to use, what i like the most is the reports generated with all the details, when the docket was raised, when it was resolved, by whom etc...it has all the details clearly...it makes life easy...
